# PRESS BRAKE BENDING TOOL CABINET

Press-Brake is an essential machine for every sheet metal company, but maintaining the dies and punches poses a significant challenge. The absence of proper storage increases the risk of tool damage and complicated tool setup. To mitigate this concern, an organized storage solution effectively reduces the changeover time by storing the dies and punches together and also provides protection against damage.

## Features:

- Durable and rugged structure.
- Simple design complying to current standard sizes of dies and punches.
- Ease of maintenance.
- Effortless pullout of each shelf.
- Anti-topple design.
- 3/4 inch thick wood for safe storage.
- Slots in storage shelves to provide secure storage.
- Glossy finish with scratch and impact-resistant powder coating.
